If you are one of the few who don't have cover we would advise that you to think about putting it in place for this purpose it may be well worth while .

The reason for us giving you this advice is to protect yourself in the event of your animal lashing out, and injuring some one or damaging someone's property, if that were to happen, and it was established that your animal was out of control you may be held responsible, or partly responsible for any injury or damage caused and may end up paying for all, or part of any settlement reached.
